**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I am a consumer of Sonic broadband. I am writing this letter to please FCC to let the consumers to have a choice to choose a competitive provide.

I was a consumer of AT&T and was a consumer of Spectrum previously. I used to pay very high price for a bundle package from them. Each term end they raise the price until I couldn't afford anymore. I try to search and find a better deal with those big corporation. However, after a first contract end with a lower price, they raise a price higher and higher. One to another of those corporation (AT & T and Spectrum), first they to attract new consumer they offer a lower price and then at the renewal of the contract, they raise the price. I don't need too many service and charge too much. I simply need an internet and a telephone service. If FCC let those telecom carrier like Sonic uses unbundled copper and inter-city fiber transport elements (UNEs) to compete in the residential marketplace, I think I will have better and affordable price for me.

Please let us, consumers, choose a competitive provide for our affordable internet and telephone service.

Thank you very much for your attention.
